

## FIVE MILLION TONS Of Coal Produced in Kentucky During Last Year.

### HOPKINS COUNTY IS IN THE LEAD

State Mine Inspector Reports Harmony Between Operators and Miners Has Made Steady Work.

### LARGEST MINES IN STATE.

(From the Courier-Journal.)

A report showing the extent of the coal mining operations in Kentucky as compared with previous years has been prepared for the Courier-Journal by Mr. G. W. Stone, of Lexington, State inspector of Mines.

The report shows a large increase in the amount of coal produced in 1900 over other years, and in full is as follows:

LEXINGTON, Ky., Feb. 6, 1901.—As I have not been able to get complete returns from all the commercial coal mines of the State for the year just closed, it will be impossible to complete my annual report for some weeks; but this same difficulty occurs annually, and the report of this office will be ready as soon as in former years.

For the information of the public, and especially those most interested in this great and fast-growing industry of our State, I desire to state through your columns that the coal production of the State for 1900 is by far the greatest in its history. However, enough reports have been received to indicate a certainty of over five million tons. A comparison of the tonnage of each year since 1891 will show its rapid increase in more recent years and give a better idea of its vast importance to every trade interest in the commonwealth, as well as to the individual homes of the people. And it should be remembered that the present output is not the limit of the full capacity of the mines now in operation, as their extent and equipments will justify a still greater output in the years to come, if favorable trade conditions shall continue; besides the possibilities of our great coal fields, lying all along our eastern and southeastern borders, and in what is known as our western field, are immense and almost incredible, as the number of productive mines and facilities for fast mining can be greatly multiplied, and the developments of this great Kentucky mineral and source of wealth will no doubt be phenomenal in the near future. However, much depends upon markets and transportation and harmony between the capital and labor employed.

The following shows the tonnage for the years named:

### CIVIL WAR RELIC.

Piece of Bacon Dug From Well Where It Was Buried For Thirty Years.

Bowling Green, Ky., Feb.—Warren T. Doherty, who resides here, brought to the city today a sure enough relic of the civil war. It is in the shape of a piece of well preserved bacon which has a history. On June 15, 1862, the Confederate army under Gen. Smith encamped at Cumberland Gap was forced to retreat. The Confederates were unable to carry all their army stores with them, and to prevent the Federals capturing their supplies and ammunition dumped everything into a dry well. Several thousand pounds of bacon,

Advance reports from various mines in different sections of the State indicate that the present year will be even more prosperous than last year. Especially is this inferred from the reports received from Hopkins county for the month of January just closed, where the enormous production of 138,367 tons was reached. This is the largest tonnage in its history. A comparison of this county for the three months now named, shows the following production:

January, 1900.....	127,294
October, 1900.....	133,073
January, 1901.....	138,367

This county is specially noted for its splendidly equipped mines; for the harmony between the operators and the employees, which has made steady work; also for the largest producing company in the State—the St. Bernard Coal Company, at Earlington; the output of these mines in 1900 being 372,132 tons, which is an increase of 94,892 tons over its 1899 output. This county is also specially noted for the largest producing mine in the State, the Refinco Coal Company, which made the following production for the two years past:

1899.....	179,005
1900.....	255,108
1900, gain.....	66,103

This mine is a marvel in its equipments and production, and its future prospects. It is a shaft 300 feet deep. Its main entry extends from the bottom of the shaft a mile or more eastward, and there are numerous cross entries reaching out right and left to a great distance. These entries connect, of course, with the working rooms where the coal is produced, and these entries, I constructed an underground haulway, which in durability will compare favorably with many of the railroads of the State, the several entries making a total of about four and one-half miles of 40 pound steel rail track, laid on heavy white-oak ties, and over which is run a 12-ton electric motor having a capacity of 1,000 tons daily. This motor reaches out to all parts of the mine, and brings in great loads of its black, rich freight to the bottom of the shaft, where it is quickly hoisted to the surface and dumped into the railroad cars and transported to various markets in the country.

To give a more vivid idea of the vastness of this mine, I note that its main entry, much of the way, is so wide and high as to admit of the driving of eight horses abreast by a western team.

The coke production of the year, as compared to 1899, is as follows:

1899—Tons.....	55,650
1900.....	72,974

The fatal accident record of the year increased from seven in 1899 to seventeen in 1900, but all of the seventeen were the result of more mine operations, and none of them were from gas explosions or defective machinery, or from falls of top on the mine entries or haulways.

G. W. STONE,  
Inspector Mines.

The man who tears his garments increases his rents!

7,000 pounds of bullets and cartridges and many muskets were thrown into the abandoned well. The incident was forgotten until 1896, when some Virginians who visited Cumberland Gap thought of the old well. They had an excavation made and found the guns, cartridges and bacon, the last named being at the bottom. The man looked as well as the day it was thrown in the well, but it is rancid from old age and unfit to eat. The bacon and other things were distributed as souvenirs, and the specimen brought to town today was a piece of that dug from the old well after having been buried thirty-four years.

Sidney Everett, charge of the United States legation in Guatemala, committed suicide.

### BY WIRELESS TELEGRAPHY.

Weather Bureau Hopes to be Able to Signal Ships 500 Miles or More at Sea.

New York, Feb. 8.—A special from Washington says: A new system of wireless telegraphy has been developed by the Weather Bureau.

"It is a success," said Willis L. Moore, Chief of the Bureau. "We have been experimenting for a year at Cobb's Island, in the Potomac river, seventy miles below Washington.

"We have completed an apparatus that we expect will enable us to signal ships 500 miles or more out at sea. We shall soon send out ships equipped with receiving instruments. We have just completed a station at Roonoke, N. C., and will soon have stations at Hatteras and Cape Henry.

"We have succeeded in telegraphing perfectly with our wireless system for sixty miles over a rough country around Washington."

### MULHATTON

To be Discharged From the Arizona Insane Asylum.

Phoenix, Ariz., Feb. 10.—In a few weeks the prevaricator of world-wide renown, Joseph Mulhatten, will be discharged from the Insane Asylum of Arizona, where he has been under restraint and care for several months. According to the superintendent, there is nothing much wrong with Joseph. He has a super-sensitive nervous system, and this is about all. He has had a quiet and peaceful existence at the asylum, with proper medical attention, and has lost about all delusions that brought him to the asylum. Joe has been "playing in hard luck" for several years. He drifted over to Florence where he helped edit the village weekly, and where he ran what he called a "mining exchange." Through a casual prospector he became interested in a gold claim in the Mineral Creek district, which he had the fortune to sell. Prosperity was unusual and proved almost too much for him. He went on a celebration that the old-timers will remember with admiration for many, and insisted that the town participate. Then he went to the asylum.

### TRICKS OF BARNSTORMERS.

How They Are Sometimes Compelled to Help One Another Out.

"One of the old slang phrases of the stage," said Muggles, who used to be a good actor, was 'to pong.' This means, or used to mean, using your own language—that is, playing a part without cues of the proper lines, relying only upon a knowledge of the play to carry you through. Years ago on the road there used to be some highly ludicrous situations in consequence of a new play being produced in a hurry. The stage manager, however, had a wonderful genius for patching up a hitch. When circumstances were necessary, he would sometimes lower a front scene and tell the low comedian and chambermaid to go on and 'keep it up,' and while they did so he would arrange how the play had to be continued.

"Of course, actors are expected to help one another out of a difficulty, but at times old grudges were paid off. For instance, I remember on one occasion a letter had to be read in one scene. Unfortunately this letter could not be found, so a 'dummy'—

that is, a blank sheet—was sent on the stage.

"Say, dad," said the actor who had to read the letter, seeing it blank, 'here's a letter for you. You had better read it yourself, as I am sure it contains good news.'

"But 'dad' tumbled to the occasion and replied: 'No, Tom, you read it. I've mislaid my spectacles.'

"Bless me," said Tom, 'it is written so badly I can't make out a word of it. Here, Nelly, you read it.'

"The unsuspecting Nelly takes the letter and seeing it blank says: 'No father had better read it. He will be able to make it out better. I'll go and fetch your spectacles. I know where they are.' And off she goes.

"The old man is again equal to the occasion and calls out to her: 'Never mind bringing them, Nelly. I'll come and get them.' Then he walked off and the stage manager had to rearrange the scene.

"Yes, sir; there's a lot in the theatrical business you outsiders never dream of."—New York Times.

### Addison G. Cammack.

Addison G. Cammack, the famous Wall street financier, who died last week in New York, was born in Christian county and lived at Hopkinsville until he was twenty-three years of age. His father was a blacksmith and died poor. Addison was a dull boy at school. He was a soldier in the Confederate army and was wounded at the battle of Shiloh. Afterward in New York he became a daring and successful speculator. Concerning his appearance at the beginning of his business career, Mr. H. C. Gant, President of the Bank of Hopkinsville, says:

"I remember him as though it was yesterday I saw him. He was all ankles and elbows, so tall that he towered above most of the young fellows in town, gawky and with homely but expressive features. His head was thatched with a mop of the reddest hair I believe I ever saw, and he was as freckled as a turkey egg."

### The Chemistry of Soil.

"Undoubtedly one of the most wonderful discoveries of modern chemistry has to do with the soil," says the Saturday Evening Post. "It has been ascertained that the most barren land can be made rich simply by adding to it certain mineral elements which cost but little. On this basis it is estimated that the United States will be able eventually to maintain 500,000,000 people—more than one-third of the present population of the world. It is merely a question of supplying the requisite quantities of nitrogen, phosphoric acid and potash. The last two are readily obtainable at small expense, whereas the first may be supplied either by furnishing to the soil condensed nitrogen in the shape of slaughter waste of nitrate of soda or by planting clover, beans or peas, which have an affinity for nitrogen is the most important plant food, and, inasmuch, as this element composes four-fifths of the atmosphere, the question is merely to absorb it into the soil. It has also come to be understood that only 2 per cent. of the material of plants is derived from the soil, the remaining 98 per cent. being drawn from the air and from water.

### STRANGE STORY

Regarding the Keifer Murder Told by a Princeton (Ind.) Jail Inmate.

Indianapolis, Ind., Feb. 12.—A special to the Sentinel from Princeton, Ind., says:

Ed Richardson, aged 26, a resident of Oakland City, Ind., who is in jail here, states that Joseph D. Keifer, now under sentence to be hanged for the murder of Nora Keifer, is not guilty, but that two other men are, and that she was killed by them April 11, Richardson lived at Elberfeld when she disappeared. He goes into details of an alleged confession to him.

### Barbecue for the Conclave.

The Knights Templars are seriously considering the giving of an old-fashioned Kentucky barbecue as one of the numbers of the Triennial week program. It would be difficult for them to hit upon a happier idea in searching for novelties for the entertainment of outsiders. If the barbecue is to be given it is almost certain negotiations will be opened with Col. Gus Jaubert, of Lexington, the world-famous burgoo artist. Indeed, it has been stated that it would be less majestic, whatever they may mean, for any one to attempt to give a barbecue in Kentucky without the aid of Col. Jaubert.

### "The Masonic."

It will be hardly possible for the Kentucky Grand Lodge of Masons to have their new home completed by the Triennial Conclave, but it will be far enough advanced by the fourth week of August to show the thousands of Knights Templar then in the city that "The Masonic" will be a building worthy a place in the heart of the Gateway to the South. Grand Secretary Grant will have his office in "The Masonic," which will be the name of the new home of the Grand Lodge, and, of course, will move with him the large library. It is probable that an auditorium, with a seating capacity of 2,500, will be one of the features of the new building. —Louisville Evening Post.

### Miss Gould as a Giver.

Among those women who have come into recent note by careful management of great wealth, is Miss Helen Miller Gould, a daughter of Jay Gould, and sister-in-law of the extravagant Count de Castellane. Miss Gould's work for the soldiers and sailors of the Spanish War is still fresh in the memory. Much that is unfamiliar regarding her gifts and her methods of giving is told by Mrs. Sarah K. Bolton in the March Delanor. Miss Gould is one who dislikes notoriety and, therefore, one whose gifts often go unrecorded.

### The Gus Sun American Minstrels.

The above company, traveling in their own private Pullman cars, numbering fifty people, with two great bands and symphony orchestra will appear at the Opera House to-night, for one performance only. The company ranks among the best on the road and is certainly worthy of a packed house. The beautiful spectacular transformation first part feature, also acts go to make up the strongest and most elaborate minstrel performance that has ever been witnessed in our city. The scenery and music are alone worth more than the admission fee. Seats now on sale at St. Bernard Store. Prices 25c., 50c. and 1.00.

Gus Sun's Minstrels have made themselves forever solid with the people of Hillsboro. Not only is the company composed of first-class gentlemen throughout, but all are first-class artists.—The Hillsboro, O., Press.

### DIED FROM BURNS.

The Three-Year-Old Son of Mr. and Mrs. Burgess Eastwood Dies After Much Suffering.

Ernest, the little son of Mr. and Mrs. Burgess Eastwood, who recently moved here from Sebree, died Sunday morning at eleven o'clock from burns received last Thursday. The child was nearly three years old, and was in the habit of going into one of the rooms and playfully turning the lock, which was the case at this time. The mother hearing screams from the room in which the child had entered rushed to the door to find it locked, and was sometime in getting in the front window. She found the child then in flames, but as soon as possible, extinguished them. A physician was summoned and the child lived until Sunday.

Elmer J. W. Mitchell conducted the funeral service at the family residence Monday morning, and the little body was taken to Sebree for interment at eleven o'clock.

The bereaved parents have the sympathy of the entire community in their sad misfortune.

Misses Nell Rootz and Manie Barnett were among those who accompanied the family to Sebree with the remains.

### The Sons of Jupiter.

"In the mythological accounts of Jupiter, we are told that it was the custom of the Gods to occasionally visit the earth and mingle in the daily life of mortals. These visits were periodically made by Jupiter, accompanied with his sons, from Mount Olympus, hence rites were performed or celebrated in their honor—the people assuming a garb or dress which was supposed to be in some accord with the style worn by the deities. From this custom originated the Olympian games, eleusinian mysteries and many other forms by which people were not only amused but instructed. In these visits the Gods did not exhibit their superior power, but imitated all the habits of mortals."

"The Sons of Jupiter" will be presented at the Victoria Lodge, K. of P. The following members will take part, assisted by entire membership: W. O. Toy, John Twyman, W. A. Keown, Leo Jackson, Charles Cowell, Theodore Watts, John Harriman, R. Magenheim, M. Sisk, J. Phillips, Joe Brown, Charles Mayhew, Charles Webb, W. C. McLeod, W. F. Burr. Music by Mrs. W. S. McGary.

### Literary Meeting.

The Literary Department of the Epworth League held their regular monthly meeting at the home of Mrs. John Rine last Monday evening. The study for the evening was "The Life and Writings of John Ruskin." The program was very interesting, each member responding in turn. The evening was well rendered. The latter portion of the evening was spent in social games, which proved to be the most pleasant feature of the evening, as the many 1900 offerings were for the hour and joined in the fun.

### Powder Ordinance.

The City Council of the City of Earlington do ordain as follows:

Section 1.—That from and after the passage of this ordinance, it shall be and the same is unlawful for any person, firm or corporation to store or keep any dynamite, or more than two kegs of gunpowder, or blasting powder, or like explosive, at any one time within any building, or in any annex to any building, or any lot within the fire limits, as established and now existing in the said city.

Sec. 2.—Such use of said building or lot is hereby declared to be a nuisance, as being dangerous and perilous to the public safety.

Attest W. F. BURR, Mayor.  
PAUL M. MOORE, City Clerk.

The high water mark which was in the Louisville leaf-tobacco trade in January. Offerings amounted to 23,916 hogsheds, and actual sales were 20,257 hogsheds. In January 1900, offerings were only 17,914 hogsheds and 18,214 hogsheds in 1899.

## LOCOMOTIVE BLASTS.

The persons composing the Dramatic Company feel very gratified indeed towards dispatcher Sheridan, who so kindly had No. 54 stop for them at Morions Gap last Saturday night.

A short delay to the Providence train was caused last Monday at Madisonville by the local engine jamming from the track.

Section foreman Edmondson and Burns have so far recovered from their late illness as to be able to again resume work.

President Smith, of the L. & N., has lately written the Henderson city official about the important improvements contemplated there. Such as the raising of the bridge, the approach and the new union depot. He promises to give these questions his prompt attention.

Section foreman Dave Deering is now located permanently at Manington.

Section foreman Robt. Hughes is now in charge of repairs on the new buy making repairs on the Barnely coal tracks.

The rumor is afloat that former Superintendent Martin, since he went west, became engaged in a quarrel with one of the trainmen, who being a better man physically, came out winner in the heat. Can it be possible that after having spent a good portion of his life in Kentucky that he goes west to be done up by a railroad cowboy?

The New York Chronicle says on railroad consolidations:

"Why is it, we repeat, that combinations and consolidations of railroad properties are the prominent feature in stock-exchange circles today, and how can these movements be checked? The reason that railroad combinations and such a prominent feature is that legislation at Washington and in the States has so far manacled the roads that they are driven into these devices to preserve their properties. Take the federal legislation, for illustration. First, the roads are thereby prevented from making any rates; that is to say, they cannot enforce any unless they conform to the views of the commissioners. Second, when they get their rates established and these commissioners say they are fair, the roads cannot uphold them, because one road, then another, will cut them, concealing the act as long as possible by paying rebates, until it fully what is being done is discovered, and a war of rates becomes a necessity.

"An obvious remedy for preventing these chaotic occurrences would naturally be an agreement between the roads to stand by their rates, and lift. That has been tried in every form and manner, until decisions of the court of last resort have determined that nothing of the kind is allowable, because not only does the interstate railroad act prohibit such a thing, but the federal trust law also provides that every sort of an agreement between the roads affecting rates is illegal. Nor do these by any means cover every antagonistic phase in the situation. We may mention one other hostile proceeding—the building of new roads or branches parallel and directly competing with the old lines, which is allowed in most of the States; that is to say, though minimum rates are required by federal and State railroad commissions, new facilities for cutting through rates and black-mailing the old roads are permitted by State law."

He wined a little farm way up in the province, and had a daughter in Boston, that is, practically in Boston, for she lived with her husband in Medford. He had come to her home for a short visit, and had just arrived.

After the usual greetings, the daughter inquired as to the health of her mother, who had not accompanied the father on his journey southward.

"Wah," he answered, "mother is ailing about this time, but she is not as bad as she used to be for six months."

"I suppose," that you telegraphed to her, telling her of your safe arrival, didn't you?" queried the daughter.

"No," said the old man, slowly, "but I thought of it. I never sent a telegram. Where is the office?"

"Right in the railroad station. You can step over and send one now if you wish to," he was replied.

"Wah," perhaps she will be best," and with that he went out. Straight to the telegraph office he went, and on arriving was furnished with a blank by the operator, on which he soon wrote his message. He then paid for the dispatch and went out on the platform.

As the operator was not busy at the time, he at once got the proper connection and clicked the message off, letter for letter. Then he stuck it on a long spindle which hung on the wall.

After about half an hour the old gentleman again entered the office.

"When are you going to send that dispatch?" he asked.

"I sent it some time ago," was the reply.

"No you haven't," he exclaimed, "I've been watching the wires for half an hour."—Boston Journal.

Pro-union business men of Cadiz have agreed to undertake the organization of a joint stock company for the purpose of constructing a railroad from Cadiz to connect with the Ohio branch of the Illinois Central or the Clarksville branch of the Louisville and Nashville railroad. They propose to raise \$100,000.

Children never cry very loud for it, but they do like Dr. Caldwell's Syrup Pepsin. Ask the St. Bernard Drug Store.

### Card of Thanks.

The Earlington Dramatic Company desire to return their sincere thanks to the citizens of Morions Gap for their liberal patronage, good order and kind reception tendered them last Saturday night. Especially do they feel grateful to those who so honored the club by granting the use of the Christian Church, and to Miss Clara Grady, Mike Cain, F. B. Harris, Will Kinnison, James Blanks, Ben T. Robinson and Thos. Steele and others. We feel very grateful indeed for their untiring efforts in securing us a fine audience, and also to the organist, Mrs. Thos. Steele we feel under lasting obligation.

### EARLINGTON DRAMATIC CLUB.

**Special Railroad Rates to Louisville.**  
The various railroads in the State have granted a rate of one and one-third fare, on the certificate plan, to delegates attending the Twentieth Annual State Convention of the Young Men's Christian Association of Kentucky. Delegates must pay full fare going, and must secure Convention Certificate from the ticket agent when they purchase their tickets at starting point. These will be returned by the Secretary of the Convention, and entitle the holders to secure a return ticket at one-third. Delegates unable to purchase through tickets to Louisville must secure certificates at each purchasing point.

The regular passenger train will be run on the K. W. into Dixon as soon as the new depot in that city is completed. The first freight to leave there in our load was two cars of tobacco stems, which were shipped to Virginia.

The Southern Cotton Spinners Association meet at Charlotte, N. C., Saturday.

## That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

## SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.

SCOTT & BOWNE, Chemists, New York.

## DOWN IN THE MINES.

We believe it wrong for the government to allow one of its officials to come to this county and lend a helping hand toward the breaking down of the rights of the county. It is not in keeping with the principles of the party under whose authority they labor. To build up all industries is strongly advocated by the party of expansion and protection. Such a step is contrary to the teachings of the party which favors the building up rather than the tearing down—favoring expansion in business, and protecting arm thrown around those who belong to the fostering of the industries of the country. And we are sorry to say that one of those fellows came here a few days ago and could find nothing but abuse to heap upon the operators who would dare assert their rights in the sight of the law.

From the article he quoted it will be seen how the president of the U. M. W. Workers tries to mislead the people in his report; his object evidently being to create the impression among the reading public that the order he represented was very kind to those who had, by his orders, been thrown into idleness. Read the letter, and see what a blessing it is to be placed upon the mercy of such an organization.

"JENNY LIND, ARK., Feb. 2, 1901."

"Editor Mine Workers Journal: In your issue of Jan. 24, Brother Mitchell, in his report touching of the Southwest strike, states that we were given an opportunity by the organization to be removed to union mines; but some of us owning property and plots of land refused to leave. Consequently, Local 461, at our last meeting, delegated me to write to the Journal and contradict this statement:

"Therefore, to the Brothers everywhere: No such proposition was ever made, and we are at a loss to know how this expression was ever formed in the brain of our respected President. God only knows it's hard enough to be on the firing line for 20 months without getting insulted. Yes, Brothers; it would be very hard for us to get up and leave property—property that's built with our own hands out of chicken-coops and cowsheds after we were evicted from the company's houses. Brothers, I have been in many struggles in my lifetime, but a more heroic set of people, a more sacrificing people, and a more patient people could not be found than are in District 21.

"They went into the woods—men and women—with their families; with an shelter but trees and the canopy of heaven; others built a shelter with boards from the cowsheds and chicken-coops; others, with poles and quilts, lived on 25 cents a week. I have seen men go with their children five or six miles to gather potatoes, and all of them make only 80 or 75 cents. Say, who would refuse to leave such legacies? I have known brothers to go to the District Secretary's office and beg for transportation to Illinois or elsewhere. It was denied them."

THE BEE has many times called the attention of the miners to the fact that the head, or rather the numerous leaders, of the U. M. W. Workers take advantage of the lesser lights and those who provide the means upon which they live like kings. Such conduct as this can be seen right here in Hopkins county, but it also extends to the higher ranks of the order, and below we reproduce a letter from one of the "faithful," who feels he has been and is being imposed upon. Just think of the extravagance here shown, and then turn to the poor striker in Arkansas, who is forced to live upon twenty-five cents per week:

BELVILLE, ILL., Feb. 5, 1901.

"Editor Mine Workers Journal: I take notice of a few things of which I wish to comment on. I find by looking over Secretary Wilson's report that the U. M. W. of A. are being taxed without being represented. I do not believe in our head officials donating to other trade union strikes out of our national treasury. I think each local union is capable of handling their own money in that direction, as we are receiving correspondence very often from other trade unions, and hence donate lots of money in that way.

"Another thing I would like to call the attention of our National Executive Board members to, and that is those photographs they had taken and paid \$20 out of our national treasury; and also, photo frames. Now, I don't object to this, but giving their "mug" taken, if they wish, for they make more money than miners do, but I don't like to help pay for them when I am not able to have my family's picture taken. Now there are other things I will not notice, where the miners are forced to pay. This, I say, is

taxation without representation.

"I know our officials, and some of the members, will take offense at this letter, but they are no better to the offended man than I am. It is true they have done good work, for which they have, and should be, remunerated; but we don't want them to think that they are our gods, or we don't want them to be made kings. We, too, have done good work, and sacrificed our homes, and many have sacrificed their lives. I know I will never gain back what I have lost for the union at \$3.50 per day."

From the iron ore and the coal in the mines to the finished ships in the ship yards, some \$50,000,000 are spent each year to keep up the shipping required for the carriage of American foreign commerce, but about 95 per cent. of this goes into British pockets, just now.

How appropriate, indeed, it is that the U. M. W. should select for one of their organizers a man whose love for his wife was so great that—if reports be true—he allowed her to die in a poor-house, where she was sent for lack of supplies of the necessities of life. The direct result of the operation of this order has, in thousands of cases, been the same. Many poor miners have been placed on the paupers' list by their action, and we don't have to leave Hopkins county for evidence of the fact. Only a short time ago the wife of a coal-vault miner was sent out among "former friends on a begging tour. Her husband having thrown up a job to join the 800 city of idlers who are making the rounds of this country, doing all in their power—whether interested or not—to reduce the wives and children of those who join them to a state of penury. Only a short time ago the wife of a coal-vault miner was sent out among "former friends on a begging tour. Her husband having thrown up a job to join the 800 city of idlers who are making the rounds of this country, doing all in their power—whether interested or not—to reduce the wives and children of those who join them to a state of penury. If reports are true—and we have excellent reasons to believe they are—a man whose love for his wife was so great that—if reports be true—he allowed her to die in a poor-house, where she was sent for lack of supplies of the necessities of life. The direct result of the operation of this order has, in thousands of cases, been the same. Many poor miners have been placed on the paupers' list by their action, and we don't have to leave Hopkins county for evidence of the fact. lignur, quarreled with one of his comrades, who slashed him under the right arm, and then, with a bayonet, he assaulted down with a bayonet. He then went to an outside surgeon and had four stitches taken in his arm. The man was then taken to the tent attended by the post surgeon. Both men are under arrest.

## ANNOUNCEMENTS.

### COURT CASES.

GILLIAND—We are authorized to announce John K. Gilliland, of Italy, Prosecutor, Plaintiff, a free S. Charles, a candidate for Clerk, subject to the action of the Republican party.

THE Kentucky judicial bill has been signed by the President and is now a law. The scramble for places is still on and no appointments have been made.

THE Triennial Conclave edition of the Louisville Evening Post, issued Monday, is the handsomest thing that has appeared since Tax Bee's Special Col. Edition. It will be treasured by Knights Templar throughout the State.

THE Governor of Ohio proposes to make the prizefighters bite the dust and the sports Nash their teeth. He says he will have his way and prevent that Cincinnati prize-fight if he has to use the whole military power of the State. It is said orders have been issued to have two or more regiments in readiness to prevent the fight that is announced for Friday night.

It is a peculiar fact, if the report be true, and it comes from reliable source, that the president of a little miners local union in this county, who don't work in the mines because he wants shorter hours and higher wages, has been working for 50 cents for a ten hour day's work, or 5 cents an hour. What do men not sometimes sacrifice for a little brief authority.

KENTUCKY has a record as being first in various movements for the benefit of mankind as well as possessing some unenviable qualifications. Various munificent and magnificent charities have taken their origin in Kentucky, grown in strength and influence at home and been imitated and reproduced in many of her sister States. Among the chief of these is the Masonic Widows and Orphans' Home at Louisville; and Kentucky's lead in this great charity is to be emphasized this year by the coming of the Triennial Conclave of Knights Templar to the city of Louisville—the greatest of Masonic gatherings known to the world. Since Kentucky Masons formed their Home, many other States have followed the noble example and established similar institutions.

Among other charities originating in Kentucky and extending to other States a recent publication calls our attention to the Louisville Home for Discharged Criminals, established for the purpose of making self-respecting men of ex-convicts. News comes of establishment of a like institution in Iowa by the Iowa Benevolent Association. The success of the Louisville home for discharged criminals is widely known.

A GLANCE at the news columns of THE BEE will show a lively and growing interest in various social activities, all planned for the pleasure and improvement of the participants and the good of the community. It is restful to turn from the routine of business, the daily work of bread-winners, the demagoguery of petty politicians, the envy and jealousy of men, the viciousness of meddlers and law-breakers, to the contemplation of these efforts to bright-

en the life and soften the heart and illuminate the pathway of the community. The good women of Earlinton are, of course, the principals in most of these matters. There is the cooking club, in which a number of the budding young ladies are cultivating very successfully the gentle art that will some day turn out of doors of new homes the Jack Spratt ideas of existence, and sweeten the temper of the fortunate men with wholesome culinary products, delicately served.

Among the young people—the girls and boys—are certain clubs which have the highest moral aims and are sowing the seed of future soundness and righteousness of life in the youth of our community. The work of the Christian Endeavor and of the Epworth League, both forces in the fight for higher morals and more careful living, is emphasized weekly by well-attended gatherings, with attractive religious, literary and social programs.

There are clubs for innocent amusement, dramatic and amusement clubs to raise funds to help along and beautify the new theatre auditorium, where our people will gather in years to come for a bright evening of rational recreation and social intercourse.

In the strictly religious lines the churches and Sunday-schools seem to grow in strength and influence. The county work of the Young Men's Christian Association promises to touch more closely the lives of young men of Earlinton.

"If we had time," which generally means if we would take time, we could contribute our mite of influence to the furtherance of all these good things, and get out of them a corresponding amount of good for ourselves and our own.

Earlington, as well as other county towns, needs waking up along these lines—and Earlinton seems to be stirring. The world is not all bad and may be made better in our own and our neighbor's houses, if we will all take part and help only a little in the movements and activities that present themselves to us daily, with the good of mankind here and hereafter for their aim.

The New York Times arraigns Mr. Bryan for an ignorance of the British constitution "that would cause his prompt discharge from the service of any respectable newspaper in the United States in which he might have been inadvertently permitted to exhibit it." Mr. Bryan, however, has his own newspaper and can be as ignorant as he pleases without danger of discharge. If Mr. Bryan would freshen up his knowledge about the constitution of his own country, it would gratify many.—Louisville Commercial.

### A Good Thing.

German Syrup is the special prescription of Dr. A. Boschee, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and the troubles of the respiratory system, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boschee's German Syrup was introduced in the United States in 1886, and is now sold in every town and village in the civilized world. Three doses will relieve any ordinary cough. Price 75c per bottle. Geo. Green's Prize Almanac.

### Pneumonia Can Be Prevented.

This disease always results from a cold or an attack of the grip, and may be prevented by the timely use of Chamberlain's Cough Remedy. That remedy was extensively used during the epidemics of la grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. Chamberlain's Cough Remedy has gained a world-wide reputation for its cures of colds and grippe, and is sold by St. Bernard drug store, Earlington; Ben T. Robinson, Mortons Gap; Geo. #### Thorough Consideration of the Character of our Prayers.

If you had a friend to whom you never went but to ask for something and if your visits to your friend were made not once, but twice, or even often every day, what do you suppose your friend would think of you? What, indeed, in such a case, ought you to think of yourself? Nothing, surely, that would be very flattering to your self respect. And yet there are multitudes who never go to God except for favors, who never approach Him but as beggars and supplicants. Their prayers are better than no prayers, for the infinite mercy is unwearying by our sorrows and weakness. But how ineluctably much is lost by failure to recognize prayer as the opportunity for communion, as of sons with the loving Father, for absorption, during however brief a space, into the divine nature, whence to emerge with spirits chastened, purified, unburdened. Joy the mere prayer of mendicancy we shall not know, but there is joy unspeakable in the prayer of fellowship.—Examiner.

Bibles For the Heathen.  
Over 5,000,000 copies of the Bible were sold by the British and Foreign Bible society last year. This is an increase of 1,000,000 over the sales of the year before, says a London newspaper. Sixty thousand "parts" of the Testament were printed and bound for the use of the troops in South Africa. But for this number the sale of Bibles in England has remained for two years at 2,000,000 copies. The missionaries are responsible for the additional million in the output. The heathen has more Bibles than ever before. Most of the books were printed in China and in Chinese characters. Many were printed in Hindoostanee. If the present rate of increase is kept up, every Bible represents a converted heathen, the world may be all Christian about two centuries hence.

### The Value of Bathing.

Unless there is a reserve of energy stored up in the hills the humbler wheel cannot be driven in the valley. He who contributes just this one more thing—self sacrificing devotion—to his cause has done his part. Six hundred English dragons once received a foolish order and rode to their death like heroes. "Magnificent," said a French general, "but not war." It was magnificent, and perhaps it was war, for it fired the imagination of England and raised the standard of duty for a century. One who can plan is good. Far better is the man who can stimulate. History affords at every turn some impregnable fortress that was the despair of the wise and prudent, but was carried by some enthusiast with a rush. He cast his reputation, his life, his all into the breach, and his body made the bridge over which the race has entered into its heritage.—Ian MacLaren.

Disappointed Longings. Sometimes I long to rest at once Over the hills of heaven's land. Sometimes I sigh for the Master's grove And to grow just one like the trees.

For a lifetime's rest, when the days grow dark, That I'll live me "long the way, And 'till my Father would take me home" At these times I, murmuring, say:

But the Master says to my longing soul: "I've a realm both grand and sweet. It is mine, and I will wait. To its gate I'll guide your feet."

And then I know that the voice is Truth, And my longings the way, And I breathe the air, and I see the sun Of my longed-for going day.

Local and Personal Items Gathered by our Nebo Correspondent.

### GRIP AN UNWELCOME VISITOR.

The only news we can promise this week is something about la grippe. If you can tell me the exact number of inhabitants of Nebo, we can tell you how many cases of grip we have.

Mark Corbin, of the Rose Creek neighborhood, is very sick with pneumonia, but little hope is entertained of his recovery.

Jim Hartman has been quite sick, but is able to be up again. Jim says that if there is any fun in the grip, he failed to see it.

Uncle John Langley is down with the grip.

"Orie" Hoffman had more grip than any one else, because it took more to do him.

Aunt Hannah Hill has been quite sick, but is slowly recovering.

Quarterly meeting at Nebo Saturday. Elder Hayes was present and as usual did some able preaching.

Rev. B. B. McMeen will preach at the C. P. Church next Saturday and Sunday. Everybody invited.

John W. Bone, of Madisonville, came down Saturday to attend the Masonic Lodge Saturday night. He returned Monday morning.

Uncle Alfred Cox is serving his country on the grand jury this week.

Bob Morrow and Al Barnett went to Madisonville last week on business private, personal and political.

H. R. Cox sold goods Saturday at auction. Quite a crowd was in attendance and prices received were satisfactory.

Eudaley & Morrow will move into their new store this week. They have a nice house and we hope they will do well in their new quarters.

Tom Knox, who has been in California this winter, has accepted a position in Bob Walker's livery stable. Tom is an old hand at the business and knows exactly how to drive 'em.

There will be an entertainment at the courthouse tonight. It is to be an illustrated temperance lecture we understand, but as they failed to send us a "complimentary" we will not give them a "write-up."

Owing to so much dry weather and grip, but little tobacco has been delivered, consequently but little is being done in the factories, but if the present weather continues a few days longer, times will live up.

The chicken buyer was here last week, but owing to low prices and bad weather, but very few were brought in.

Noah Day has sold, signed, sealed and delivered his sawmill and says he is out of the business to stay.

Our loading club still continues to flourish. They meet in daily session around Cris Hoffman's store and begin by "spurring" tobacco juices on the stove. After that has been done to the satisfaction of all pipes are produced and lighted and the room filled with smoke. True, that some people are so sensitive that the scent of tobacco smoke makes them sick. What care we if they do not like it? Let them go somewhere else; and as for wit, we would make Mark Twain, Bill Nye, Bob Burdett, Josh Billings or any of the celebrated wits, hide their heads in shame. We know more about farming than the most successful farmer in Kentucky, more about law than all the lawyers in Madisonville combined and as for politics, McKinley, Bryan, Carlisle, or any of that ilk are only beginners and should come to us to learn. As to the mining troubles of our country we are more than confident that we could adjust the whole thing in a short time. The only thing that is strange to us is that our masterly abilities have not been recognized and been called on to adjust all these matters. True, we sometimes get in Cris' way and he wishes us at home or some other place to warm, then they will have nothing else to do but to buy goods when they come in.

There are two more classes that we have been requested to pay our compliments to, but we refrain for this time, but look out you will yet hear from Restricts.

An estimate places this season's French wheat crop at \$12,000,000 bushels, which compares with last year's officially reported crop of 310,000 bushels.

G. A. Roberts of Lintner, Ill., suffered four years with a bad case of indigestion and could not eat. He lost 65 pounds. Two bottles of Dr. Caldwell's Syrup Pepsin restored his appetite, cured his stomach trouble, and today he is well and hearty and says he owes his health to Dr. Caldwell's Syrup Pepsin. # Arbuckles' famous Roasted Coffee

The low price at which Arbuckles' famous roasted coffee can be sold is made possible by its enormous sale. It should not be classed with the inferior imitations sold at a cent a pound less than Arbuckles'. It has a quality greatly superior to these imitations and makes many more cupsful to the pound. No other firm in the world can buy coffee to so good advantage as the producers of Arbuckles' Coffee. No other coffee is cleaned, roasted or blended with such great care and skill. When you buy Arbuckles' you get better quality and greater value than you can get in any other coffee at anywhere near the same price. You also get with each package a definite part in some useful article. Full information with each package. Save the signatures.

### Relative to the Corn Crop.

"Viewing the landscape over, it brings to a disinterested judgment the fact that the increased population and the naturally increased consumption of corn throughout the world has overtaken the production," says the Toledo Market Report. "It is tolerably clear that the crop of 1899 was practically consumed, and there was evidence daily of increased feeding in this country and a cash demand that, so far, has rendered cribbing unnecessary. The crop matured in a dry, fine condition and the movement has been large."

### Good Advice.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. ## MRS. NATION BACKED OUT.

She Abandoned a Joint-Smashing Raid that Promised to Be Sensational.

SHE SAID THE LORD DID NOT DIRECT IT

A Party of Thirty Followers, Armed for Theft, Disgraced, and Some Went So Far as to Cut Her a Coward-Lecture Engagements at the Bottom of It.

Topeka, Kas., Feb. 9.—Mrs. Nation Thursday night, for the first time, displayed the white feather. It was at a meeting of 30 of her followers, who armed with hatchets, had gathered in secret to arrange a night raid on Topeka, Kan. The women had been promised the aid of several male students at Washburn college, who were to come to town, armed, after midnight, and personally take part in the raid and also see that the crusade were not molested. The excitement at the meeting was intense, the women planning minutely for the raid. It was decided to saunter out at three o'clock in the morning and demolish every joint in town.

Mrs. Nation talked down the satisfactory arranged for terrific onslaught. Mrs. Nation balked, began putting on her wraps and said she was going home. Instantly her followers were in an uproar. Mingle with expressions of surprise and quick change of front, soon came words of condemnation. Finally one woman, who had spent a greater part of the day collecting hatchets and collecting aid for the crusade, turned to where Mrs. Nation stood in the center of a group, and shaking her fist in the Wichita woman's face shouted excitedly:

Called Mrs. Nation a Coward.

"You are a coward. Mrs. Nation, you are a coward."

For a moment Mrs. Nation lost control of herself, the first time since she had started out on her smashing tour.

"I am not a coward," she said, with emphasis. "I will go this minute with any one woman and smash a joint."

A dozen voices were raised in "Hallelujahs" and for the moment it looked as if an instant raid would result. But Mrs. Nation, soon collecting herself, turned to bantering her followers, telling them she was tired, that she did not wish her to go to-night, and without further ado left the room.

Women Waited and Wondered.

While the women waited to see Mrs. Nation, accompanied alone by a reporter, made the rounds of the joints to satisfy herself of the condition of the joints, apparently anticipating a raid, had closed and barred their doors, and at midnight Mrs. Nation went to her home.

Would Tell Nation's Deeds.

During the evening Mrs. Nation was questioned about her Chicago trip, which had been planned for some time, but she could tell nothing definite about it. "I will go when the lord directs me," she said. "At present he wants me to remain here."

Some of the volunteer members of Mrs. Nation's band of crusaders claim that their leader has been induced to give up the smashing of joints in order to go on a lecture tour. Mrs. Nation is expected to speak in Kansas City, Omaha, Sioux City, Des Moines and Chicago and she has refused many other offers.

IT WAS SIMPLY A CANARD.

The Story of the Pardon of Mrs. Florence Maybrick Without Foundation.

London, Feb. 12.—The officials of the home office say there is no foundation whatever for the report that Mrs. Florence Maybrick had been pardoned.

An official of the United States embassy said to a representative of the press:

"It does not need the home office to deal to prove the absolute baselessness of the Maybrick story. We would be the first to be notified of any such action, or proposed action by the British government. The only single fact has arisen to give the slightest justification for the story or to make the release of Mrs. Maybrick more probable than her execution."

## AN EXPOSITION BOOKLET.

Another Beautiful Production from the Bureau of Publicity of the Pan-American Exposition.

Here comes another of the beautiful booklets from the Bureau of Publicity of the Pan-American Exposition, Buffalo, N. Y. It consists of 16 pages and a cover in light green. The unique feature of it is the miniature reproduction of the famous

will adorn the wings of the Electric Tower, and beside it a picture of Niagara Falls. The second page shows a picture of the Electricity Building and five other small illustrations of the uses of electricity. The third page shows the splendid group of buildings erected by the National Government and which will contain the Government exhibits, also five miniature illustrations, one of them showing the life-saving station, where exhibitions will

expended. The grounds contain 350 acres, being half a mile wide, and a mile and a quarter long. Other pages show horticulture, graphic arts and mines, manufactures and liberal arts, the Music Temple, the Plaza and its beautiful surroundings, the Stadium or athletic field, the Agricultural, live stock and ethnology features, and a few of the 30 or 40 ingenious and novel exhibits which promise to make the Midway the most wonderful that has

poster, "The Spirit of Niagara," which has had a most remarkable demand. The envelope in which the poster booklet is mailed also bears a reproduction of this artistic work. The booklet is a popular picture book, the first page having an engraving of the magnificent Electric Tower, which is 391 feet high, and which will form the glorious center piece of the great Exposition. On the same page is a miniature reproduction of one of the torch bearers which

be given daily by a picked crew of ten men during the Exposition. The fourth page is devoted to the wonderful displays of government ordinance, the fifth to the Machinery and Transportation Building and four other illustrations of modern machines and vehicles. The center of the booklet shows a birdseye view of the Exposition, and gives one some idea of the great extent of the great enterprise upon which about \$10,000,000 is being

ever been prepared for Exposition visitors. The railroads will make low rates from all parts of the country during the Exposition which opens May 1 and continues six months, and the people of Buffalo are preparing to entertain comfortably the millions who will attend. Anyone desiring a copy of this booklet may have it free by addressing the Pan-American Bureau of Publicity.

## WANT PUBLIC BUILDING.

Congressman Allen Asking for Building for Henderson.

Washington, D. C., Feb. 8.—Representative Allen, of Kentucky, appeared before the House Committee on Public Buildings and Grounds this morning and presented an argument in favor of the erection of a public building at Henderson, Ky. Mr. Allen stated to the committee that the post-office at Henderson received over \$24,000 during the year past in post-office orders and about \$125,000 was collected by internal revenue agents.

## Will Lecture.

Ed P. Crowe, who abandoned the salubrity, while pastor of the M. E. Church, South, at Owensboro, charged with drunkenness, is to become a temperance lecturer. The subject of his lecture is "From Pulpit to Prison," and he will deliver it at a number of places. He announces that he has reformed forever.

The finest glass works in the world were burned Tuesday at Rochester, Pa.

## Bradley Declines.

The Louisville Commercial says that ex-Gov. Bradley has refused to let his friends go to Washington to advocate his appointment to the Judgeship of the new Federal district. His reasons are that he will not oppose Judge A. M. J. Cochran, of Mayville, whom the President is reported to favor. The Commercial says Mr. Bradley is out of the race and that Judge Cochran will be appointed. A large delegation of Mr. Bradley's influential friends had their plans laid to visit the President.

## The Cooking Club.

The young ladies' Cooking Club met with Miss Lillie Evans Saturday afternoon. This club has been having fortnightly meetings for almost a year, and is one of the most beneficial of the many in the city. The membership is composed of girls ranging in age from twelve to eighteen years. At the meetings each of the members contributes some delicacy of her own make, and it is said they sometimes present dishes that

the most experienced housewife would do well to imitate. Sewing and fancy work are also given attention, and the girls always have an interesting and helpful meeting.

## Letter List.

Mrs. Mary J. Adams, Mrs. William Altman, Seward Cobb, Miss Willie Darby, Casper Davenport, Mary Dixey, Anne G. Daugherty, Jesse Eversley, Ben Prager, John Ganes, M. D. Hase, Newton Haines, J. P. Humble, C. W. Kennett, Robt. A. Miller, Mrs. Charlotte Phelps, P. G. Rose, Carrie Sisk, James Small, Col. Nora Todd, Geo. Zeller, Mrs. Cassie Wilsom, Mrs. Ella Whitlock, Albert Waters.

## Valentine Party and Box Lunch.

The teachers and older pupils of the Public school will give a valentine party and box lunch at the school building to-night. An interesting program has been prepared, in which are several amusing contests. The boxes are only twenty-five cents, and the purchaser has the pleasure of conversing with a pretty school girl, while he partakes of lunch. The proceeds will be used for purchasing school supplies.

## SHORT LOCALS.

The Gas San American Minstrels at the Opera House tonight.

Miss Blanche Hancock, of Madisonville, is visiting friends here this week.

Mrs. James Kilroy has been suffering this week from a severe case of the grip.

Mrs. R. W. Wood's condition is still unimproved, and her many friends fear that her recovery is almost hopeless.

Born to Mr. and Mrs. Rufus N. Clark on the 8th inst., a fine boy.

G. H. Champlin, of Hopkinsville, discovered a \$500 pearl in a pint of oysters, while eating them one day last week, it is reported.

Will Kimmons' new cottage on the corner of Moss Avenue and Railroad street is nearing completion. It is a handsome and convenient building and when completed will be quite an addition to the street.

Marion McCord, who has been seriously ill, and whose life was almost despaired of, is much better and is now able to be up.

Mr. Thomas Ryan and family left this week for Memphis, Tenn., where Mr. Ryan has been for several weeks past, working on a railroad running out of that city.

John Klump, of New Mexico, is in Hopkins county on a visit to relatives. He visited the family of his nephew, M. B. Long, a few days this week, and brought him among other relics the head of a beautiful deer, which he had killed in one of his hunts. Mr. Klump is a typical Westerner, and a very entertaining conversationalist.

## How to Cure the Grip.

Remain quietly at home and take Chamberlain's Cough Remedy as directed and a quick recovery is sure to follow. That remedy counteracts every tendency of the grip to result in pneumonia, which is really the only serious danger. Among the tens of thousands who have used it for the grip not one case has ever been reported that did not recover. For sale by St. Bernard drug store, Earlington; Ben T. Robinson, Morton's Gap; Geo. King, St. Charles.

## Died at Nebo.

Mr. Mark Corbin, of the Nebo country, died yesterday, Wednesday morning, February 13, 1901 at his residence. Rev. B. M. Currie was called from here to preach the funeral which will be at 11 o'clock this morning. Mr. Corbin was a farmer and one of the substantial members of the M. E. Church, South, well known and highly esteemed, and leaves a wife and seven children.

John Powers Not in Pennsylvania.

Harrisburg, Pa., Feb. 12.—A search of all the departments of this Commonwealth fails to confirm the story that John L. Powers, who is under indictment in connection with the Goebel assassination, is in the employ of the State of Pennsylvania. All the officials who could be seen deny the story.

Doc Potree, a negro crazed with drink, probably fatally beat his wife with a gun barrel at Elkton, knocked another woman senseless, and then pouring oil over his clothes, applied a match. He, too, will probably die.

Jas. L. Jennings, of Dalton county, was in Earlington yesterday on his way to Morgans Gap, and White Plains and called on THE BEE while in the city.

## SALT RHEUM CURED BY Johnston's Sarsaparilla QUART BOTTLES.

JUST BEEN IN TIME.

Most skin eruptions are a warning of something more serious to come. The only safe way is to treat the warning. Johnston's Sarsaparilla is the most powerful blood purifier known.

Nature, in her efforts to correct mistakes, which mistakes have come from careless living, or it may be from ancestors, shoots out pimples, blotches and other imperfections on the skin, as a warning that more serious troubles (perhaps tumors, cancers, erysipelas or pulmonary diseases) are certain to follow if you neglect to heed the warning and correct the mistakes.

Many a lingering, painful disease and many an early death has been avoided simply because these notes of warning have been heeded and the blood kept pure by a right use of JOHNSTON'S SARSAPARILLA.

Miss Abbie J. Rande, of Marshall, Mich., writes:

"I was cured of a bad humor after suffering with it for five years. The doctors and my friends said it was salt rheum. It came out on my head, neck and ears, and then on my whole body. I was perfectly raw with it. What I suffered during those five years, is no use telling. Nobody would believe me if I did. I tried every medicine that was advertised to cure it. I spent money enough to buy a house. I heard JOHNSTON'S SARSAPARILLA highly praised. I tried a bottle of it. I began to improve right away, and when I had finished the third bottle I was completely cured. I have never had a touch of it since. I never got any thing to do me the least good till I tried JOHNSTON'S SARSAPARILLA. I would heartily advise all who are suffering from humors or skin diseases of any kind to try it at once. I had also a good deal of stomach trouble, and was run down and miserable, but JOHNSTON'S SARSAPARILLA made me all right."

The blood is your life and if you keep it pure and strong you can positively resist disease or face contagion fearlessly. JOHNSTON'S SARSAPARILLA never fails. It is for sale by all druggists, in one quart bottle at only one dollar each.

For Sale by St. Perrard Drugstore, Earlington, Ky.

## For Malaria, Chills and Fever

## THE BEST PRESCRIPTION IS Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the *Original* and that all other so-called Tasteless Chill Tonics are imitations. An analysis of other chill tonics shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
